National Prescribing Service (NPS) clinical audits, and various diseases registers to assist with preventative health management (e.g. cervical, breast and bowel screening), involve the doctor recording information on the treatment prescribed or recommended to patients with a particular illness. Please sign the Patient Consent Statement below if you agree to have your ***anonymous*** information used in such studies. Your medical care will not be affected in any way by your decision.

If you would like further information about how your health information is used in these studies, please talk to your doctor or ask at reception.

❑ I have read and understand the information above, and **I agree** to have my anonymous information included in the studies described.
